EVENING BULLETIN

3:30 EDITION

The Bulletin prints all the bargain news any woman needs to read

There is no "shut-down" in the factory making a widely advertised article. Why? Because advertising creates an uninterrupted, year-in, year-out demand that doesn't run in "seasons." Advertising in the Bulletin will have the same effect in your business.

NEW YEAR CROWDS CALL ON PRESIDENT FILIPINO AGITATORS MAKING TROUBLE

Agitators Work Among Filipinos

Few Disturbers Trying To Cause
Trouble—Planters Settle
Dispute

The presence of several agitators from Manila among the ninety-four Filipinos who arrived at Honolulu yesterday has brought about considerable trouble between the new recruits for Hawaii's sugar estates and their prospective employers, the planters.

At least two of the Tagalogs among the remainder of the party but six months ago are said to have figured in a serious street railway strike at Manila, at which time the Manila Electric Railway & Light Co. was compelled to operate its cars manned with American soldiers and carrying two armed guards on each car in order to cope with the many acts of violence offered the strike breakers.

The Ybanyans who comprise the large majority of the Filipinos which arrived by the Japanese liner are a peaceably inclined people. They are being recruited by Messrs. Pinkham and Steven from the southern islands in the Philippine archipelago, and for the most part come from Iloilo and Cebu.

Manila, on the other hand, is infested with thousands of Tagalogs, who have but little regard for law or order, and as a whole are the breeders of discontent and dissatisfaction.

Maui Senator Declares That King
Should Succeed In Babbitt's Place
As Superintendent Of Public In-
struction

That the political views and opinions held by Senator Coelho of Maui are similar to the convictions of many voters in the outside districts is frequently remarked. The Bulletin has been in receipt of communications from time to time to the effect that the Maui Senator's views find favor in the country. In order to gain a definite statement of Mr. Coelho's political ideas the Bulletin obtained the following interview from the Maui Senator:

"Politics? Why, the air is full of it these 'terrible days.' As a Republican, I have watched with interest the methods employed by certain few in furthering their own selfish ends without regard to the feelings of the masses, irrespective of race or class distinction.

"Just as soon as one expresses himself on behalf of the masses, he is branded as a renegade and made the mark of personal abuses—even to the extent of boycotting.

"All the trouble in the Republic held by Senator Coelho of Maui are similar to the convictions of many voters in the outside districts is frequently remarked. The Bulletin has been in receipt of communications from time to time to the effect that the Maui Senator's views find favor in the country. In order to gain a definite statement of Mr. Coelho's political ideas the Bulletin obtained the following interview from the Maui Senator:

"Not so within the past few years, even to the present time. Recommendations made by subordinate machinery in accordance with party rules are disregarded. ...

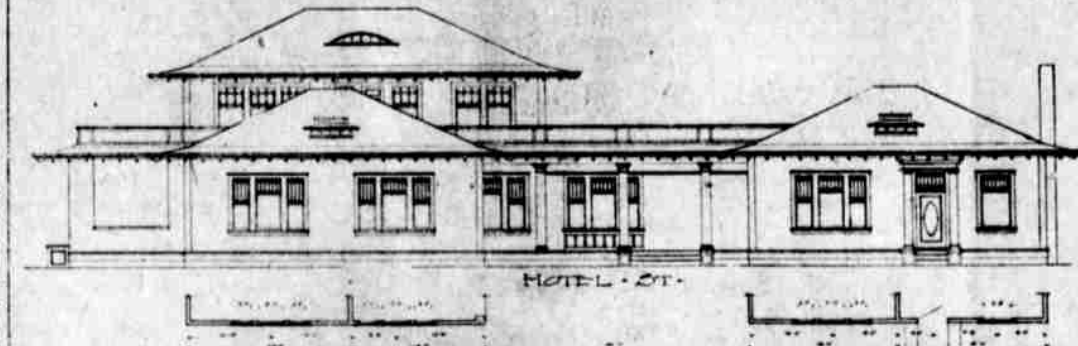

"Corporate interests under the management of 'party men' have considerable patronage which could be given to citizens. They don't do it, however. Aliens are always preferable to them. Citizens invariably are promised political perquisites. Except malcontents—why, they always get the plum.

"There is a vacancy now that I am almost certain will be offered to some malcontent—although Hawaii is full of people who are eligible and fully qualified. I have reference to the office of Superintendent of Public Instruction. That office should be given to Chas. E. King because he is fully qualified and competent. The fact of his nativity should not be considered a disability. His appointment would not only be a reward for arduous and diligent service in the interest of education in all the years that he has served the department from teacher to now.

UNIVERSITY CLUB'S NEW HOME

The plans for the new University Club on Richard and Hotel streets, have just been completed and building operations will commence almost immediately. It is expected that the club will be ready for occupation within four months. The property on which the building will stand, is known as the Haalelea Lawn.

The building will be in the semi-mission or tropical-mission style of architecture, with just a trace of the

on to the patio, so that these will at all times be cool and an adequate ventilation assured. A long pergola will be built, flanking the Hotel street front, and a large garden, 100 feet by 150 feet, in which a number of trees already are growing, will add to the beauty of the setting.

The main entrance hall will be 17 feet by 24 feet, flanked on one side by a waiting room and office. On the other side of this will be a lavatory

and a cloak room. A library 30 feet by 20 feet, a dining room 30 feet by 10 feet and a buffet 25 feet by 20 feet will face Hotel street, while a lounge room 24 feet by 30 feet and the club governor's room 21 feet by 30 feet will comprise the main living rooms of the ground floor, for men exclusively.

One of the conspicuous features of this building, will be a ladies section, entirely excluded from the main portion of the club, and having a separate private entrance from Ho-

tel street. This will comprise a dining room 16 feet by 30 feet and a reception room 18 feet by 20 feet. The woodwork throughout will be of fir, redwood and ohia. The main entrance doors will be of fir and the floors will be laid down with ohia. The windows, with which the building is well supplied, will be, what is known as, Oriel windows. The building is to be constructed entirely of wood, resting upon stone and tim-

ber foundations. The kitchen 42 feet by 20 feet will be in the rear of the lot and will include a wine room, store room and pantry.

The second story will include four rooms, which will be used solely as bedrooms. The roof is to be flat and will open out from the main hallway of this second story. It will be 40 feet by 40 feet and protected by a large canvas awning. Tropical potted plants and lounge chairs will be arranged to form a roof garden.

The club rooms will open directly

Three Are After De Bolt's Place

Rawlins, Andrade And Edings Would
Like The Circuit
Judgeship

Three candidates now appear on the horizon who are willing to succeed to the place on the Circuit Bench of the Territory in the event that Judge J. T. De Bolt is appointed to the Supreme Court vacancy occasioned through the resignation of Arthur Wilder, as recommended by the unanimous endorsement accorded De Bolt by the Bar Association.

The receptive three are William T. Rawlins, Assistant United States District Attorney; District Magistrate Andrade and former Circuit Judge E. S. Edings. The race for the place is generally conceded to lie between Rawlins and Andrade with the indications somewhat more favorable to the candidacy of Rawlins, Andrade's present position on the bench of the District Court paying nearly as much as the remuneration of a Circuit Judge.

Rawlins is thought to be regarded favorably by the executive committee of the Bar Association, which possesses considerable discretionary power in connection with the endorsement of candidates for judicial positions, and it is believed that there will be little or no opposition to his endorsement in the event that De Bolt is advanced to the bench of the Supreme Court.

One of the questions that the Governor will be asked is whether he endorsed De Bolt or Robbins B. Anderson for the Supreme Court vacancy. A second question will be whether he endorsed A. G. M. Robertson or Henry E. Cooper as Second Federal Judge, vice Woodruff, now of the Pocaterra Coal Company forces. These are the questions that the Governor will be asked and maybe—according to the Advertiser—he will reply to the last by stating that he has endorsed himself for the Federal Judgeship. Meanwhile there is an extra force of men laboring to have the new robin's-egg blue chamber ready for His Excellency and it is hoped that the 21st Biennial will be properly spread in the executive office before the Tenyo Maru is sighted.

GAY JOHN BRIGHT CALLS AT WAILUKU

Man Who Splurged At Honolulu's
Expense Makes Stir In Maui
Town In Role of Detective—Pu-
pule Graduate.

(Special to the Bulletin.)
Wailuku, Maui, Dec. 31.—John Bright is here. He arrived last Wednesday on the Claudine from Hilo and registered at the Maui hotel as Edwin Hall Bright, chief of detectives of Hawaii County, Hilo. This was done in large legible writing so that no one could make a mistake as to his identity.

This is the same John Bright who was an inmate of the Insane Asylum at Honolulu, and who on the very day he was released from the asylum went direct to the Young hotel, secured the best suite of rooms, and then started to entertain his friends on a lavish scale. Like Dr. Cook he went out of sight, and was finally found in the Chinese Hospital, Honolulu.

John arrived here Wednesday attired in a black coat, khaki pants and costly leggings. After registering at the hotel whose fame as the finest hostelry in town he had evidently read in the tourist ads, Mr. Bright went around to see the town for himself. Armed with a pocketful of the best Havanas the hotel could furnish, direct to the Young hotel, secured the

FLORAL DAY IS NOW SUGGESTED

More Than Parade Is
Plan Of The
Committee

On Monday the headquarters of the Floral Parade Committee will be opened on the fourth floor of the Stangenwald building, and a beginning made in the work of preparing for the annual event. Harold Dillingham has plans to bring a number of new ideas into effect and according to the tentative plan that has been drawn up the day will be observed with something more than a floral parade, the idea being to give it more the significance of a floral day, with the parade of course as the center of attraction.

L. S. Conness has been named to act as secretary to the committee. Chairman Dillingham believes in making a quick beginning in the work of preparation and will soon have the essential details of the plans well in hand and in plenty of time to allow the public to make the necessary preparations.
